

Cheerleading

By: Kenzie Contillo, Miranda Medeiros, and Sabrina Rao

After we did growth mindset activities in advisory and had a presentation by Dave Place, not only us but the team became more confident in themselves and came together as one and never gave up.

We learned:

- It's okay to take risks
- Make mistakes and learn from them
- Embrace our challenges
- To persevere in the classroom, in the hallways, during practice and on the court

★ Working Together

To make a stunt work, a group must put in all their effort.

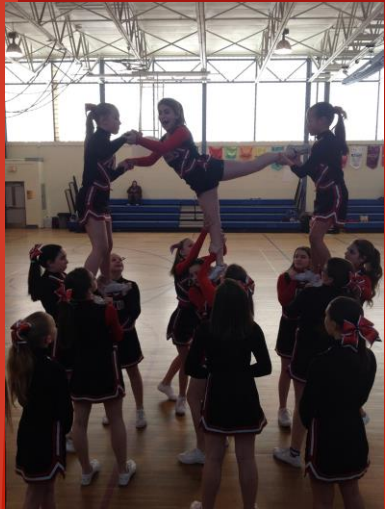

★ Strength and Perseverance

When things didn't work, we never gave up. We fought for stunts to stay up and make everything work.

Communication Team work

Collaboration

✦ Work together. Achieve anything!
