Our first award goes to a talented educator whose focus is on continually providing opportunities for the students of Feinstein Middle School to learn and interact with each other in a positive and supportive manner. He is a huge supporter of using positive encouragement with his students to push them to take risks, to try something they haven't done before, even though there may

quite a few students looking on. He gets to know all his students very well, and doesn't give up until he knows that he has gotten the very best of each student. He works hard as a team player in his very supportive department that services the entire school.

For the last several years, he has helped organize and has been the MC for Anything Goes, has organized our annual Field Day activities, and works with his colleagues on a dance for the Showcase.

He continually makes himself available to assist other faculty members in whatever manner possible. His modest style, positive attitude and willingness to engage makes him an invaluable member of the Feinstein Middle School community

It is a pleasure to award this Crystal Apple to Rick Frigon.
